Work Experience

Machine Learning Engineer (Apr 2017 - Present) Rakuten USA

- Improved software engineering culture through building best-practice templates that reduce project initializing time and automatically checks errors before code review
- Developed backend API for machine learning services
- Built data pipelines through **Apache Airflow** for data processing and model generation
- Designed and developed data labeling backend which automates the interaction between crowd-sourcing workers and experts to generate high quality labeled data
- Set up the CI/CD pipeline through **Jenkins** for existing systems
- Cooperate with overseas teams in San Mateo and Ukraine

Project Manager (Jan 2019 - March 2019) DLT Lab, National Cheng Kung University

- Containerized and fixed legacy projects in **The Mosquito Man**
- Introduced code review culture to a newly formed team
- Set up a **drone** CI/CD server and created CI pipelines for two ongoing projects

Chief Teaching Assistant (May 2018 - Nov 2018) X-Village, National Cheng Kung University

- Managed the executive team with 16 members
- Organized two months of full-time courses and a one-semester 3 credit course

Substitute Military Service (July 2015 - July 2016) K-12 Education Administration, Ministry of Education

- Maintained legacy systems implemented in multiple languages, including C#, VBScript, PHP, etc.
- Developed automation programs for generating reports which save 80% of human labor time
- Delivered a human resource management system using **django**

Technical Experience

Skill **Advance:** Python, Docker, Git, Linux, Data Engineering, Web Backend Development

Intermediate: AWS, Project Management, Data Analysis

Open Source **commitizen-tools:** Maintainer

Contributions **PyCon TW:** Develop **mail_handler** and maintain **postevent-report-generator**

git extras: Add `git ignore-io` command

templater: Update **templater** to Python3 and release **templater3**

flask, batavia, toga, podium, wtforms-json, pipreqs, edx-platform, edx-documentation, pelican-clean-blog, pip-check: Bug fixes

Additional Experience

SITW Second Hand Trade: Website for students to trade seconded goods (Developed backend using **django**)

vivid-bot: Paraphrasing Chinese sentences according to different personalities In this project, we used natural language processing tools such as **jieba**, **word2vec** and **nltk** and combined concepts from psychology.

Public Speaking Experience

- Euro Python 2020, Remote Python Pizza 2020, PyCon CA 2019, SITCON 2019

Community Involvement

PyCon Taiwan

- Chairperson (Oct 2020 - Present)
- Program Chair (Dec 2019 - Sep 2020)
- Program Committee Member (Jul 2019 - Nov 2019)

Education

2016 - 2018 **Master, Computer Science and Information Engineering** National Cheng Kung University (Tainan, Taiwan) GPA: 4.16/4.3

2011 - 2015 **Bachelor, Industrial and Information Management Double Major: Computer Science and Information Engineering** National Cheng Kung University (Tainan, Taiwan) GPA: 3.77/4.0

Honors & Awards

2013 Honorable Mention 2013 Railway Application Section Problem Solving Competition

Publications
