Work Experience

Software Engineer I (Apr 2017 - Present)

Rakuten Slice

- Designed and developed the backend of a data labeling system which automates the interaction between crowdsourcing workers and experts to generate high quality labeled data
- Build ETL processes
- Built data pipelines through **Airflow**
- Built best practice template for internal Python projects
- Set up the CI/CD pipeline through **Jenkins** for existing systems to enhance productivity
- Added test for existing projects to ensure the functionality correctness
- Cooperate with oversea teams in San Mateo and Ukraine

Project Manager (Jan 2019 - March 2019)

DLT Lab, National Cheng Kung University

- Containerized and fixed legacy projects in **The Mosquito Man**
- Introduced code review culture to a newly formed team
- Set up a **drone** CI/CD server and created CI pipelines for two ongoing projects

Chief Teaching Assistant (May 2018 - Nov 2018)

X-Village program, National Cheng Kung University

- Managed the executive team with 16 members
- Organized two months of full-time courses and a one-semester 3 credit course

Substitute Military Service (July 2015 - July 2016)

K-12 Education Administration, Ministry of Education

- Maintained legacy systems implemented in multiple languages (e.g., C#, VBScript, PHP, etc.)
- Developed automation programs for generating reports which save 80% of human labor time
- Delivered a human resource management system using **django**

Technical Experience

Skill **Advance:** Python, Docker, Web Backend Development, Git, Linux
Intermediate: AWS, Project Management, Data Analysis

Additional Experience **SITW Second Hand Trade:** Website for students to trade seconded goods
(Developed backend using **django**)

vivid-bot: Paraphrasing Chinese sentences according to different personalities
In this project, we used natural language processing tools such as **jieba**, **word2vec** and **nlTK** and combined concepts from psychology.

Open Source Contributions

commitizen: Maintainer

git extras: Add `git ignore-io` command

templater: Update **templater** to Python3 and release **templater3**

flask, **batavia**, **toga**, **podium**, **wtforms-json**, **pipreqs**, **edx-platform**, **edx-documentation**, **pelican-clean-blog**, **pip-check**: Bug fixes

Public Speaking Experience

- Remote Python Pizza 2020
- PyCon CA 2019

Community Involvement

PyCon Taiwan

- Program Chair (Dec 2019 - Present)
- Program Committee Member (Jul 2019 - Nov 2019)

Education

2016 - 2018 **Master, Computer Science and Information Engineering**
National Cheng Kung University (Tainan, Taiwan)
GPA: 4.16/4.3

2011 - 2015 **Bachelor, Industrial and Information Management**
Double Major: Computer Science and Information Engineering
National Cheng Kung University (Tainan, Taiwan)
GPA: 3.77/4.0

Honors & Awards

2013 Honorable Mention 2013 Railway Application Section Problem Solving Competition
